How to choose correct ChaseXC

Camera Typ

First make sure to check the camera type you have

ChaseXC Hero 9/10/11

for black camera types only

ChaseXC Hero 8

ChaseXC 5/6/7

for black cameras only GoPro Hero7 silver and white are not compatible

 ChaseXC Universal GoPro is universal model with integrated holder for all GoPro cameras.

 ChaseXC Universal Flat universal model compatible with all action cameras in weight range 50 – 160 g.

Which tail to choose

Regular/Slow wings

- Large tail has higher drag, it is better for slower wings
- For GoPro 9/10 and Max take large tail

PPG/Speed Wings

 standard tail suited only for fast PPG or speed wings
